

PCI-DSS Essentials Training

Protect customers from fraud and
secure valuable payment card data

When accepting transactions with credit or debit cards, it's essential to ensure customers' payment card data is secure. With attackers targeting card information, payment service providers rightfully expect merchants to have systems in place to prevent fraud and chargebacks. Breaches that affect customer data can be costly, both financially and in terms of an organisation's reputation. Achieving and maintaining compliance with the Payment Card Industry - Data Security Standard (PCI-DSS) ensures your organisation is well-placed to safeguard valuable financial data.

Who should attend?

Executives and Project Managers

Delivery mode

In person

Duration:

1 x Day

About this training module

Payment Card Industry - Data Security Standard (PCI-DSS) is the framework designed to ensure organisations are able to secure their customers' credit and debit card details. With attackers regularly targeting such high-value information, it's never been more important to ensure your organisation has the right technology, systems and policies in place to safeguard such data. Achieving and maintaining compliance with PCI-DSS ensures this is possible.

Benefits:

This training course will enable participants to:

- ▶ Have a basic understanding of roles and obligations around PCI-DSS compliance
- ▶ Understand key challenges surrounding payment card security and how compliance helps in mitigating these challenges

This one-day onsite or in-house workshop is conducted by highly experienced PCI-DSS Qualified Security Assessors (QSAs). Participants will gain an in-depth understanding of the requirements of the PCI-DSS framework. The course is tailored for those who are new to the PCI-DSS framework and is ideally suited for executives and project managers.

Our PCI DSS Essentials course will cover:

- ▶ PCI, PCI Council and PCI-DSS Overview
- ▶ Roles and responsibilities within the compliance process
- ▶ PCI Reporting Requirements (schemes and forms)
- ▶ Terminology Explained (QSA, ASV, SAQ, AOC, ROC and more)
- ▶ Benefits of PCI Compliance
- ▶ An overview of all the PCI-DSS Requirements

Why Education and Training with CyberCX?
